

# PRINCE2® Foundation Course (Projects in Controlled Environments)

PRINCE2® provides the ability to deliver new products and services on time, to required quality and within cost.

This course focuses on delivery of project outputs, monitoring and controlling risks and issues, and applying specified roles and responsibilities as well as consistent process and appropriate tools and templates.

## Overview

The PRINCE2® Foundation Course covers the whole syllabus of the PRINCE2® Foundation Level and prepares participants for the PRINCE2® Foundation examination. The course is accredited through OCG (formerly CCTA). It is desirable, though not essential, that participants have some experience of working on projects. Some pre-read material is provided prior to the course which will need to be fully read prior to commencing the training.

## Key Outcomes

- Understand the Principles, Themes, Processes and tailoring of the PRINCE2® method
- Monitor a project within the boundaries of the Project Plan
- Participate effectively in a project in accordance with the PRINCE2® method

## Course Outline

- The relationship between a project and its Business Case
- Detailed explanation of the PRINCE2® Principles, Themes and Processes
- Roles and associated tasks and responsibilities within a PRINCE2® project
- The management of risks and issues in a project
- Structure and contents of a product focused project plan
- The management of a project relative to the project plan
- Definition, management and acceptance of work packages
